## UPDATE ON COVID-19

Attention Residents, Resident Representatives, Families and Staff:

On June 21, 2022, a fully vaccinated resident tested positive for COVID-19. Contact tracing was completed, and all staff and residents underwent surveillance COVID testing. All tested negative.

On Thursday, June 23 and Friday, June 24, on-going surveillance testing yielded all residents and staff negative for COVID-19. On Tuesday, June 28, on-going surveillance testing yielded all resident and staff **negative** for COVID-19. So, once again, we are clear and free of COVID-19 in our community!

Residents have returned to enjoy daily activities and dining experiences within the community. To protect both our residents and staff, we will suggest the residents wear a face mask (if tolerated) during the family visits.

**As a reminder to everyone, DO NOT come to the community if you are experiencing any COVID-19 symptoms or you have been exposed to the virus or waiting for results of a COVID-19 test.**

Mahalo for your kokua as we all work together to keep our staff and residents healthy and safe. If you have any questions or concerns, please contact us at (808) 983-4444.

Warm regards,

Jolene Kageyama  
Executive Director & Administrator
